AWARD

Dated the 13th August 1963

By Government of India, Ministry of Labour & Employment Notification dated the 1st September, 1962 this industrial dispute between the employers in relation to Jamadoba Colliery and their workmen was referred to this Tribunal for adjudication under Clause (d) of sub-section (1) of Section 10 of the Industrial Disputes Act 1947 (XIV of 1947). The specific matter in dispute is as follows:

Whether the deductions made on the ground of underloading of mine cars or tubs by the management of Jamadoba Colliery from February, 1961, was justified; if not, to what relief are the workmen entitled?

2. The case of the union is that between February 1961 and August, 1962, that is, for a period of 19 months the management of this colliery effected deductions from the mine cars loaded by the miners in an arbitrary manner thereby reducing their wages on the plea of underloading. It is asserted that there was never any case of underloading justifying such deductions. According to the union these deductions were made from the legitimate earnings of the miners solely with a view to make up or account for the shortage of despatchable coal caused by a large-scale rejection thrown out by the mechanical washing plant of the management on account of the poor quality of coal in this mine. The union prays that the management be directed to refund to the miners the wages so withheld since February, 1961.

3. The case of the management is that it is one of the duties of the underground munshi to record the number of mine cars or part thereof loaded every day by each gang of miners during the shift and submit his report for the whole week. It is said that payment is made to the miners on the basis of the report submitted by the munshi and if the gang of miners has left any mine car partly loaded the gang is paid proportionately for that mine car. It is submitted that miners have always been and are being paid for the actual number and extent of mine cars loaded by them according to the prevailing rate. It is denied that there was ever any deduction of mine cars fully loaded by the miners. So far as rejection at the washing plant is concerned it is submitted that this has nothing to do with the wages since collieries are not at all concerned with the rejection at the washing plant which operation comes at a much later stage.

Findings

4. Both parties admit that during the period from February, 1961 to August or September, 1962 deductions were made from the mine cars of the miners. The dispute between the parties is as to whether these deductions were made only to adjust or make up the shortage of despatchable coal caused by rejection of a certain percentage of the coal at the washing plant as stated by the miners or whether, as the management contends, they were the result of underloading of mine cars. The submission of the management is that the miners are required to load the mine cars up to the water level but occasionally they leave the cars partially unloaded and whenever there is any such case the munshi-in-charge is

the shift makes a note of the extent of deficiency by eye-estimate and payment is made to the miners accordingly.

5. The nature and extent of deductions made in some cases will be apparent from the few load statements filed in this case (Exts. 1, 3 series, 4 series and C & C/1):

Ext. No.	Total cars allotted	Deduction or adjustment made.
I	6	I (for two days)
3	13	$\frac{1}{2}$
3/a	17 $\frac{1}{2}$	1 $\frac{1}{2}$
3/c	12	I
3/d	14	I
4	5	$\frac{1}{2}$
4/a	4	$\frac{1}{2}$
4/b	3 $\frac{1}{2}$	$\frac{1}{2}$
4/c	4	$\frac{1}{2}$
4/d	3	$\frac{1}{2}$
C&C/1	16 $\frac{1}{2}$	1 $\frac{1}{2}$

The case of the union that these deductions were arbitrarily made with a view to account for the shortage caused at the washery is not supported by any evidence. The allegation seems to be based on mere conjecture. Laxmi Narayan, the only witness examined on behalf of the miners, in his examination-in-chief itself states that he cannot say why these deductions were made. His attention was drawn to a load statement (Ext. 1) which contains the figures for two days, namely, 20th March 1961 and 21st March 1961. On the first day the number of full cars loaded was one besides 3/4th of two cars. The total bill came to 2 $\frac{1}{4}$ cars. That was the state of things on 21st March 1961 also. According to Laxmi Narayan (L.W. 1) the weight of 2 $\frac{1}{4}$ tubs noted on each day represents the weight after deduction. He asserts that on each day he had loaded 3 cars but actually the bill was prepared for two tubs and a half. He admitted, however, that he had no papers or any materials to show that on this particular occasion he had loaded three tubs and not two tubs and a half on each day. He has no independent memory either about the quantity loaded in these cars. In view of this evidence it is not possible to accept his allegation that although he had loaded three cars on each day there was arbitrary deduction of half a car from the output of each day. Shri Ajit Kumar Sarkar (M.W. 1) has clearly stated that after the cars are hauled to the surface they are unloaded at the tippler and from the tippler the coal goes to the coal washing plant. According to him the final figure of despatch is the quantity of coal put into the tippler. There is nothing to indicate that this evidence is incorrect. It appears that the management has got only one washery and the coal of six collieries are sent there for washing. In the process of washing the identity of the coal of different collieries is lost. It is somewhat difficult to believe that the loss in the quantity of coal after washing is thereafter adjusted by making arbitrary deductions from the daily output of the miners of different collieries. In the absence of any evidence supporting this allegation and in view of the positive evidence of the Assistant Manager that the final figure of despatch of coal from a particular mine is the quantity of coal put into the tippler the union's allegation has to be rejected.

6. The conduct of the miners regarding the alleged arbitrary deduction is also somewhat inexplicable. The wage period of a miner is calculated according to days, that is to say, from Monday to Saturday. For a wage period of Monday to Saturday wages are paid on the 14th day calculated from the 1st day of the wage period. Laxmi Narayan (L.W. 1) admits that if any deduction is made from the remuneration of a miner he would immediately come to know of it at the time of payment. The practice for the miners is to go to the bill clerk at the end of each week of loading and to ascertain how many tubs or cars they had loaded. This information about the number of tubs or cars loaded by the miners in any particular week is given by the bill clerk on Friday following. It is thus obvious that the miners came to know of the deductions, if any, immediately after payment on the following week. Curiously, however, they never made any complaint either to the Assistant Manager or to the higher authorities about these deductions. The allegation of Laxmi Narayan (L.W. 1) that they made verbal protests about it to the Assistant Manager two or four times and thereafter did not pursue the matter is not worthy of credence. The Assistant Manager, a responsible officer, has denied that any such complaint was made to him. Laxmi Narayan alleges that when the miners came to know

of these deductions there was an agitation in February, 1961 and that the workmen held a meeting in which the Secretary of the union was called. This meeting is said to have taken place in March, 1961. This statement about there being an agitation and a meeting being held rests entirely on the uncorroborated testimony of the witness. No papers have been produced in support of it. It is inconceivable that a meeting was held by the Secretary of the union but the proceedings of the meeting were not recorded anywhere. Although the management is said to have committed this act of high handedness for such a long period no attempt was ever made by the miners to seek relief under the Payment of Wages Act. It appears to me that this case about deductions being made from the mine cars on account of rejection of a certain percentage of coal at the washery was put up at a late stage merely on the basis of the fact that the slips issued to the miners made mention of some deductions. The evidence of the management that these deductions had nothing to do with the washing plant is one sided and there is no reason why it should not be accepted. The evidence shows that there is an elaborate arrangement for maintaining the record of daily raisings of each gang working in the colliery. It would appear that immediately on going down the munshi examines the allotment position from the Line Book maintained underground and the number of loaded and empty cars on different lines. He then supervises the haulage and distributes empties to different lines. The munshi of each shift who works underground records the attendance of the miners and the production of each gang in his note book. As soon as the shift is over he comes out of the mine and records the entries in the rough coal book. At the same time he also submits a report stating how many cars had been loaded by the miners during his shift. So far as the miners are concerned the shifts are overlapping. Miners begin their shift one and a half hours after the shift starts. During this one hour and the half preliminary steps are taken by other workmen for the actual working of the mine. The miners continue to be in the mine for one hour and a half after the close of the shift. If any mine car has not been fully loaded in any shift before the munshi leaves, the munshi of the next shift would see to it that the mine car is fully loaded by the miners of the previous shift. If in any case the munshi of the next shift finds that the miners of the previous shift have not fully loaded a mine car he would make a note of it and estimate what quantity has remained unfilled. He reports this to the munshi of the previous shift on the following day. After entries have been made by the munshi in the rough coal book and the daily raising report the latter report is sent to the Assistant Manager where it is checked. At the end of the week the munshi also brings his rough coal book to the Assistant Manager for verification and certification. The Assistant Manager verifies the rough coal book with reference to the daily report and the load and lift measurement. After verification the rough coal book is sent to the bill section where bills are prepared. It is the duty of the Assistant Manager to check the bills or pay sheets every week on Friday with reference to the rough coal book and the load and lift measurement book. It further appears from the evidence of the Assistant Manager that proportionate payment is made to the miners whenever any under-loading is noticed. He adds that such proportionate payments were made both before and after the period in dispute. A large number of documents, such as, the munshi's personal note book (Ext. G) and the original pay sheets with rough coal books (Exts. A and B series) have been filed on behalf of the management. The entries in the personal note book are made underground by the munshi during his shift and those in the rough coal book immediately after the shift is over. As regards the preparation of pay sheets I have already described the procedure. The personal note and the rough coal books are contemporaneous documents and are above criticism. The pay sheets are based on the entries in these two books. Apparently the entries in the rough coal book and the personal note book are prepared at the earliest stage and have nothing to do with the rejection at the washery. There is, therefore, no reason to hold that the deductions shown in the load statement are not genuine. I am unable to hold that these records are spurious and do not show the actual state of things. I am satisfied that the pay sheets during the period were prepared on the basis of actual output shown in the contemporaneous documents and the deductions are attributable only to deficiency occasionally noticed in the mine cars loaded by the miners.

7. Shri Shankar Bose next argued that there is nothing to show that the munshi of the succeeding shift keeps any record of cars loaded by the miners of the previous shift during the overlapping period. In other words, according to Shri Bose, the deductions are due to the fact that no account is kept by the authorities of the output of the miners during the overlapping period. If this were true, it would be a very serious defect in the procedure. I am, however, unable to accept the contention of Shri Bose as correct. As I have explained above apart from the personal note book and the Rough Coal Book each munshi makes entries underground in what is called the Line Book (Ext. F). Separate entries are made by each munshi

in the line book in each shift. Ram Chandra Dey, one of the munshis examined by me at the mines, has explained the entries in this book. He has stated that after identifying the mine cars with reference to the gangs he makes necessary notes in the Line Book which has the following columns:

- (1) Description of lines.
- (2) P. B. or previous balance.
- (3) 'R' or raising.
- (4) T or total (the total of figures in columns 2 & 3).
- (5) D.R. or Drawn (This indicates the balance of mine cars hauled up during the shift).
- (6) L.B. or left balance. (This indicates the balance of mine cars left by the Munshi during the shift).

The last column indicates the number of cars remaining unloaded at the close of the shift. The Line Book mentions the number of cars distributed per line. The number of cars distributed to each gang appears in the personal note book of munshi. It is on the basis of the Line Book and the personal note book that the Rough Coal Book is prepared. The Line Book mentions the number of cars loaded in each line in each shift. The munshi of the succeeding shift as soon as he comes underground knows how many cars were loaded on each line during the previous shift. The Line Book undoubtedly does not show how many cars were loaded by each gang. This, however, is noted in the Munshi's note book which contains particulars of the gangs on each line. Connecting the entries in the note book with the entries in the Line Book a munshi is able to ascertain the output of each gang to whom he allotted empties during the first shift. This identity of cars filled up during an overlapping period is known by the munshi on the next day when he comes underground and inspects the Line Book. He finds the note of cars loaded on every line in the shift following his shift on the previous day. If, for example, he had left three cars on line A during his time on the previous day and if his successor had supplied three empties on the same line on that day after his shift he would at once know that out of the six cars loaded on this line on the previous day three had been allotted by him but which had not been loaded during his shift on the previous day. On referring to the note book he comes to know how many gangs had worked on that line and how many cars he had allotted to each gang on that line. Thus he is able to ascertain the output of a particular gang during his absence on the previous day. Laxmi Narayan (L.W. 1) states that they also inform the Munshi on the next day about the number of cars loaded by them. On these materials I find it difficult to hold that the prevailing system of keeping record of loading is defective. The union's contention that no record is kept of loadings made by miners during the overlapping period cannot be accepted.

8. On behalf of the union reference has been made to the award passed by Shri P. S. Bindra in Reference No. 13 of 1954 (Ext. 2) and that of Shri Salim M. Merchant in Reference No. 24 of 1961 (Ext. 2/b). In the former reference one of the issues was whether the management was justified in reducing the number of mine cars loaded and despatched resulting in a cut in the wages of loaders. It appears that the effect of installation of a coal washing plant in connection with the cut in the mine cars was discussed by the learned Presiding Officer. It was held that the cuts were justified because the miners were not loading them according to standard. It was recommended that the mine cars should be checked at the working faces before they are pulled up and if there was any shortage the workmen should be asked to make it up and if still they do not make up the shortage the cut should be exercised and the miners informed. In Reference No. 24 of 1961 the issue was whether the demand of the workmen for measuring and recording the tubs underground where the tubs are loaded and not at the pit top was justified. It was held that the existing practice of measuring and recording the tubs at the surface was far from satisfactory and should be discontinued. Neither of these two awards is of any help to the workmen in this case. The evidence is that both these directions are being observed. This is what Ram Chandra Dey, one of the munshis, states:—

If I find that any car has not been properly loaded I bring this to the notice of the gang concerned and ask it to load it completely full. If the gang does not agree to improve the loading I immediately tell it that it will get wages only to the extent the mine cars have been filled up. Ordinarily we ignore unsatisfactory loading if it does not exceed one or two inches below the water level. If this, however, continues notice has to be taken of it. If it exceeds this limit we ask the gang

to load the cars to their full capacity. If the loading is less by more than one or two inches and if there are several such cars we tell the gang that the total shortage is so much and that the wages of the miners would be deducted to the extent of the shortage. In case the gang does not agree to fill up the vacant spaces of more than one or two inches we allow the mine cars to go up."

9. Comment was made by Shri Shankar Bose on the fact that the deficiency noticed were not accurately measured and they merely represented the eye-estimates of the munshis. It is submitted that admittedly no statement of measurement in writing is handed over to the miners on the spot which is a violation of the provisions of Rule 17 of the Payment of Wages Mines Rules. This rule provides that in the case of piece workers the surveyor who measures the work for such works, shall at the time of measurement hand over to the miners a statement in writing containing the measurement figures immediately after taking the measurement in a measurement book of a permanent nature. Learned counsel for the management submits that this rule does not apply to the present case as the capacity of the mine cars is already measured. I am not impressed with this contention. As was pointed out by Shri Salim M. Merchant in Reference No. 24 of 1961 there was no doubt that coal was loaded on the tubs of a certain capacity but the deductions involved a measurement of the deficiency in the loading. I agree with Shri Shankar Bose and hold that the management is guilty of violation of Rule 17. This, however, is a matter between the authorities and the management. The mere fact that the load statement is not supplied to the miners at the time of measurement in writing is no ground for holding that the deficiencies recorded at a later stage after verbal intimation on the spot are open to doubt.

10. On a consideration of the facts and circumstances I am of opinion that the union has failed to prove that the deductions were unjustified. On the contrary my finding is that the deductions were due to underloading of mine cars by the miners. That being so the deductions were justified and the workmen are not entitled to any relief.

11. I give my award accordingly.

S.O. 2480.—In pursuance of section 17 of the Industrial Disputes Act, 1947 (14 of 1947), the Central Government hereby publishes the following award of the Industrial Tribunal, Bombay, in the industrial dispute between the employers in relation to Messrs Gill Amin Steamship Company (Private) Limited, Bombay and their workmen which was received by the Central Government on the 20th August, 1963.

BEFORE THE CENTRAL GOVERNMENT INDUSTRIAL TRIBUNAL AT BOMBAY

REFERENCE No. CGIT-12 OF 1963.

Employers in relation to Messrs Gill Amin Steamship Company Private Limited, Bombay.

AND

Their workmen

PRESENT:

Shri Salim M. Merchant,—Presiding Officer.

APPEARANCES:—

For the workmen.—Shri H. K. Sowani, Advocate with Shri I. S. Sawant of the Transport and Dock Workers' Union, Bombay.

For the employers.—Shri P. C. Pandit, Advocate instructed by Shri O. T. Sharma, Secretary for Gill Amin Steamship Company Private Limited.

INDUSTRY: Ports and Docks.

STATE: Maharashtra.

Bombay, dated 19th August 1963

AWARD

The Central Government by the Ministry of Labour and Employment's Order No. 28/3/63-LRIV, dated 10th April, 1963, in exercise of the powers conferred by clause (d) of sub-section (1) of section 10 of the Industrial Disputes Act, 1947, (XIV of 1947), was pleased to refer the industrial dispute between the parties above-named, in respect of the following subjects matter specified in the schedule to the said order, to me for adjudication:

SCHEDULE

"Whether the management of Messrs Gill Amin Steamship Company Private Limited, Bombay are justified in retrenching their workmen, namely, Sarvashri H. D. Parker, Dock Superintendent, S. D. Palav, Assistant Supervisor, M. D. Parker, Delivery in charge, S. K. Savant, Dock clerk and M. B. Subedar, Dock clerk with effect from 1st January, 1963. If not to what relief these employees are entitled?"

2. After the reference was made, the union filed its statement of claim on 4th May, 1963, to which the company files its written statement under cover of its letter dated 6th June, 1963. The dispute was thereafter fixed for hearing on 12th August, 1963, and I heard the submissions of the parties on 17th August, 1963.

3. As its name indicates this is a steamship company and the five workmen mentioned in the schedule to the order of reference are its employees working in the Bombay docks. On 30th November 1962, the company served notice on these five workmen, intimating to them that their services would not be required as from 1st January 1963, due to the vessels of the company having been given on long-term charter. Thereupon, the Secretary of the Transport and Dock Workers' Union, Bombay (hereinafter referred to as the Union), which represents the workmen of this company, addressed a letter to the company stating that it did not consider the reasons for retrenchment of these workmen as stated in the company's notice dated 30th November 1962 as being valid and it, therefore, contended that the said action of the company was illegal. It alleged that the company had taken this action to threaten the staff and bring undue and illegal pressure on them to submit to the company's illegal and unjust treatment which

it had forced on the workmen for a long time. The union, therefore, called upon the management in the interest of harmonious industrial relations to withdraw the notices of retrenchment served on them immediately, failing which the union would take such action against the company as it deemed fit (exhibit W-1). There was no reply to this letter from the management and on 10th December 1962, the union invited the intervention of the Conciliation Officer. Joint meetings of the parties were held before the Conciliation Officer which did not result in the dispute being settled, with the result that the Conciliation Officer made his failure report dated 30th January 1963.

4. The union, in its written statement dated 4th May 1963, has submitted that a notice of termination or retrenchment of the workmen concerned in the dispute was mala fide and amounted to unfair labour practice, that the management had not made out any reasonable case for retrenchment of the workmen and that the continuance of the workmen's services was absolutely necessary for the company as its business had not gone down and the workmen retrenched were not surplus to its requirements; that the reasons given by the company are not correct and the company is still having enough number of tow-ships and that the financial position of the company is sound. The union has, therefore, prayed that the company be ordered to withdraw its notice of retrenchment dated 30th November 1962 and without prejudice to this it has submitted that if it is not possible to continue the workmen in the service by the company, the Tribunal may be pleased to award adequate compensation to the workmen on the basis of their past services and their good record of service as well as the possibility of future unemployment to be suffered by them.

5. The company in its written statement has mainly urged that the retrenchment of these workmen was justified and bona fide. It has urged that the company owned in all four ships of which the S.S. "TRIO" had to be scrapped and was lying idle since the last one and half years and that there was a suit pending in the High Court of Bombay being Suit No. 14 of 1962 in which an injunction had been granted by the High Court restraining the company from dealing with the ship in any manner whatsoever; that since June 1962, not a single ship of the company carried cargo from Bombay; that of the three remaining ships, the S.S. "SHEILA MARGARET" was detained at Chittagong (Pakistan) from June 1962 to January 1963; that the remaining two vessels viz. the S.S. "AUGUSTE LEVERS" and the S.S. "CARL LEVERS" were now plying on the eastern coast of India; that there was no work for the dock staff from January 1962 till the date of notice and that the "AUGUSTE LEVERS" was given on charter for 12 months from October 1962 to 1963. The company pleaded that under these circumstances it was justified in giving the retrenchment notice to these workmen who constituted its dock staff. It has also pointed out that retrenchment was also effected in the office staff of the company by the retrenchment of one typist, one telephone operator, one accounts clerk, one general clerk, one purchase assistant and a peon. The company has denied that it owns any cargo ship. It has also denied that it is making substantial profits. It has stated that it has been sustaining heavy losses for the last 4 years and in proof it has appended copies of its balance-sheets for those years. The company has stated that it had made it clear to the workmen in its notice of retrenchment that they would be paid of their legal dues. In para 9 of its written statement, the management has stated as follows:

"In spite of this the Conciliation Officer has ordered the Company not to dispend with the services of the dock workers till the dispute is settled. It is prayed that the Company cannot go on paying this staff when there is no work and that the Company is suffering heavy losses and that there is no likelihood of any work in the near future too."

6. At the hearing of this dispute before me on 17th August 1963, Shri P. C. Pandit, Advocate, on behalf of the company stated that these five workmen had not been retrenched from service but were continuing in employment. In other words, he stated that the retrenchment notice of the company dated 30th November 1962 had not been acted upon and these workmen had not been retrenched but were continuing in service. He, therefore, contended that the reference could not be adjudicated upon as the reference has proceeded on the basis of retrenchment having been effected from 1st January 1963, which in effect had not happened. Shri Pandit further stated that the workmen had been paid and they had accepted their wages each month from January 1963 and they were thus continuing in service but that the company,—because of financial difficulties, had not been able to pay these workmen their wages for the last two months. Shri Pandit has pointed out that the company was in financial difficulties and that a creditor had

filed a petition for the liquidation of the company which was supported by other creditors of the company and that the petition being petition No. 53 of 1963 was to come up for hearing on 19th August 1963 in the High Court at Bombay. Shri Sowani, the learned Advocate for the union, representing the workmen, stated that the company had effected retrenchment of these workmen by its notice dated 30th November 1962 with effect from 1st January 1963 and thereafter it had taken these very workmen back on fresh employment. He therefore urged that the company could not get over its liability to pay these five workmen retrenchment compensation and their leave dues, etc. as on 1st January 1963. In view of this position taken up by him, Shri Sowani stated that he was withdrawing the prayer in the union's written statement for directing the continuance of these workmen in the service of the company and he was only claiming retrenchment compensation which was due to these workmen. He frankly stated that he was doing so in view of the liquidation proceedings pending against this company in the Bombay High Court.

7. I have heard the submissions of both Shri P. C. Pandit, Advocate for the company and Shri H. K. Sowani, Advocate for the workmen, at some length and I am satisfied that the position today is that the company had not retrenched these workmen from its service since 1st January 1963 and that the company's notice dated 30th November 1962 was never given effect to because the union had agitated against it and that these five workmen were continued in service and are continuing in service as the employees of the company without their having been retrenched on 1st January 1963 or any other subsequent date. Shri Sowani was forced into the position of having to argue that there was fresh employment of these five workmen with effect from 1st January 1963, but he has not led any evidence to prove this. He has admitted that the workmen continued to receive their wages as before each month after the notice of 30th November 1962. Shri Pandit, the learned Advocate for the company was right when he argued that for whatever reasons, either because of the misunderstanding of the legal position on the company's part or because of what the company's representatives thought was the Conciliation Officer's order, the notice dated 30th November 1962 had stood cancelled by the conduct of the employers and of the workmen and, thereafter, the workmen were continued in service and had been paid wages and had accepted wages in continuance of their service. No doubt, the company has in its written statement stated that these workmen had been retrenched for justifiable reasons but from the portion of para 9 of its statement which I have extracted above, it is clear that the company had understood the Conciliation Officer as ordering the continuance of the status quo and therefore had never given effect to the retrenchment notice. Shri Pandit, the Advocate for the company was right when he argued that the union could not have the benefits of both continuity of service from 1st January 1963 as also retrenchment compensation as on 1st January 1963. I think there is substance in this contention of the company, and I am of the opinion that retrenchment was never effected and the union has failed to prove its story of re-employment from 1st January 1963. In the result, I hold that there has been no retrenchment of these five workmen viz. H. D. Parker, S. D. Palav, M. D. Parker, S. K. Savant and M. B. Subedar from 1st January 1963 under the company's notice dated 30th November 1962 or thereafter and they are entitled to no relief. The order of reference is, therefore, disposed of accordingly.

No order as to costs.

[No. 28/3/63/LRIV.]

S.O. 2481.—In pursuance of section 17 of the Industrial Disputes Act, 1947 (14 of 1947), the Central Government hereby publishes the following award of the Industrial Tribunal, Dhanbad, in the industrial dispute between the employers in relation to the Mahabir Colliery and their workmen, which was received by the Central Government on the 21st August, 1963.

BEFORE THE CENTRAL GOVERNMENT INDUSTRIAL TRIBUNAL,
DHANBAD

In the matter of a Reference under Section 10(1)(d) of Industrial Disputes Act, 1947 (XIV of 1947).

REFERENCE No. 15 OF 1962

PARTIES:

Employers in relation to Mahabir Colliery

AND

Their Workmen.

PRESENT:

Shri Raj Kishore Prasad, M.A., B.L.,

Presiding Officer.

APPEARANCES:

For the Employers:

Shri S. S. Mukherjee, Advocate, with Shri B. P. Harit, Authorised Officer of the Company.

For the workmen:

Shri S. Mukherji, Advocate, with Shri Robin Chatterjee, Vice-President, Colliery Mazdoor Sabha.

Dhanbad, dated the 12th August, 1963

AWARD

This reference has been made under Section 10(1)(d) of the Industrial Disputes Act, 1947, by the Ministry of Labour & Employment, Government of India, under its Order No. 2/11/62-LRII, dated the 11th May, 1962, to this Tribunal for adjudication of the following industrial dispute:—

- "1. Were the services of Shri M. N. Chatterjee transferable under the terms of the contract with him, from one company to another company without his consent?
2. Did the order transferring Shri M. N. Chatterjee to the Western Kajora Colliery as an Overman affect the conditions of Shri M. N. Chatterjee's services?
3. Was the management of the Mahabir Colliery justified in terminating the appointment of Shri M. N. Chatterjee?
4. What relief, if any, is Shri M. N. Chatterjee entitled to?"

2. The Colliery Mazdoor Sabha, representing the concerned workman, filed a written statement on behalf of the workman, Shri M. N. Chatterjee, on 29th May 1962, whereas the management filed its written statement on 1st June 1962.

3. This case was contested keenly and lots of documents were filed and also oral evidence adduced on both sides, but, on the day of argument, on 12th August 1963, both the parties filed a joint petition of compromise mentioning therein their agreed terms of settlement and prayed that an award in terms thereof may be passed.

4. I have read the joint petition of compromise and also considered the terms of their settlement and I am satisfied that they are fair and reasonable and in the interest of both the parties, and, therefore, I accept them.

5. In these circumstances, the reference is disposed of in terms of the afore-said compromise, which is marked Annexure 'A' and an award in terms of the said compromise is made which is made a part of this award.

6. This is my award which I make and submit to the Government of India under Section 15 of the Act.

[No. 31/33/63-ONG(3).]

S.O. 2494.—Whereas it appears to the Central Government that it is necessary in the public interest that for the transport of petroleum between Barauni Refinery in Bihar State and Haldia Port in Calcutta in West Bengal State, a pipeline should be laid by the Indian Refineries Limited and that for the purpose of laying such a pipeline, it is necessary to acquire the right of user in the land described in the Schedule annexed hereto;

2. Now, therefore, in exercise of the powers conferred by sub-section (1) of section 3 of the Petroleum Pipelines (Acquisition of Right of User in Land) Act, 1962 (50 of 1962), the Central Government hereby declares its intention to acquire the right of user therein.

3. Any person interested in the said land may, within 21 days from the date of the notification, object to the laying of the pipeline under the land to the competent authority at 9, Syed Amir Ali Avenue, Calcutta-17 in the office of the Indian Refineries Limited. R. S. KHANNA, Under Secy.

New Delhi, the 22nd August 1963

S.O. 2496.—Whereas it appears to the Central Government that it is necessary in the public interest that for the transport of petroleum from the Ankleshwar Gas field in Gujarat State to the Uttaran Power Station in Gujarat State, pipelines should be laid by the Oil and Natural Gas Commission and that for the purpose of laying such pipelines, it is necessary to acquire the right of user in the land described in the Schedule annexed hereto.

2. Now, therefore, in exercise of the powers conferred by sub-section (1) of section 3 of the Petroleum Pipelines (Acquisition of Right of User in Land) Act, 1962 (50 of 1962), the Central Government hereby declares its intention to acquire the right of user therein.

3. Any person interested in the said land may, within 21 days from the date of this Notification, object to the laying of the pipelines under the land to the competent authority at Elampeco, 4th Floor, Sayajiganj, Opposite College Lokmanya Tilak Road, Baroda in the office of the Oil and Natural Gas Commission. Every person making such an objection shall also state specifically whether he wishes to be heard in person or by a legal practitioner.

[No. 31/47/63-ONG-I.]

S.O. 2498.—Whereas it appears to the Central Government that it is necessary in the public interest that for the transport of petroleum between Barauni Refinery in Bihar State to the Haldia Port in Calcutta in West Bengal State, a pipeline should be laid by the Indian Refineries Limited and that for the purpose of laying such pipeline, it is necessary to acquire the right of user in the land described in the Schedule annexed hereto;

2. Now, therefore, in exercise of the powers conferred by sub-section (1) of section 3 of the Petroleum Pipelines (Acquisition of Right of User in Land) Act, 1962 (50 of 1962), the Central Government hereby declares its intention to acquire the right of user therein.

3. Any person interested in the said land may, within 21 days from the date of this notification, object to the laying of the pipelines under the land to the Competent Authority—Special Land Acquisition Officer, C/o Indian Refineries Limited, P.O. Hathidah, District Patna. Every person making such an objection shall also state specifically whether he wishes to be heard in person or by a legal practitioner.

[No. 31/47/63-ONG-II.]

S.O. 2499.—Whereas it appears to the Central Government that it is necessary in the public interest that for the transport of petroleum between Barauni Refinery in Bihar State and Haldia Port in Calcutta in West Bengal State, a pipeline should be laid by the Indian Refineries Limited and that for the purpose of laying such a pipeline, it is necessary to acquire the right of user in the land described in the Schedule annexed hereto;

2. Now, therefore, in exercise of the powers conferred by sub-section (1) of section 3 of the Petroleum Pipelines (Acquisition of Right of User in Land) Act, 1962 (50 of 1962), the Central Government hereby declares its intention to acquire the right of user therein.

3. Any person interested in the said land may, within 21 days from the date of this notification, object to the laying of the pipeline under the land to the competent authority at 9, Syed Amir Ali Avenue, Calcutta-17 in the office of the Indian Refineries Limited. Every person making such an objection shall also state specifically whether he wishes to be heard in person or by a legal practitioner.

[No. 31/33/63-ONG(ii).]

S.O. 2501.—Whereas it appears to the Central Government that it is necessary in the public interest that for the transport of petroleum between Barauni Refinery in Bihar State and Kanpur in Uttar Pradesh State, a pipeline should be laid by the Indian Refineries Limited and that for the purpose of laying such a pipeline, it is necessary to acquire the right of user in the land described in the Schedule annexed hereto:

2. Now, therefore, in exercise of the powers conferred by sub-section (i) of section 3 of the Petroleum Pipelines (Acquisition of Right of User in Land) Act, 1962 (50 of 1962), the Central Government hereby declares its intention to acquire the right of user therein.

3. Any person interested in the said land may, within 21 days from the date of this notification, object to the laying of the pipelines under the land to the Competent Authority at 7/166, Swarup Nagar, Kanpur in the office of the Indian Refineries Limited. Every person making such an objection shall also state specifically whether he wishes to be heard in person or by a legal practitioner.

No. 31/50/63-ONG-i.]

New Delhi, the 22nd August 1963

S.O. 2502.—Whereas it appears to the Central Government that it is necessary in the public interest that for the transport of petroleum between Barauni Refinery in Bihar State and Kanpur in Uttar Pradesh State, a pipeline should be laid by the Indian Refineries Limited and that for the purpose of laying such a pipeline, it is necessary to acquire the right of user in the land described in the Schedule annexed hereto:

2. Now, therefore, in exercise of the powers conferred by sub-section (1) of section 3 of the Petroleum Pipelines (Acquisition of Right of User in Land) Act, 1962 (50 of 1962), the Central Government hereby declares its intention to acquire the right of user therein.

3. Any person interested in the said land may, within 21 days from the date of this notification, object to the laying of the pipelines under the land to the Competent Authority at 7/168, Swarup Nagar, Kanpur in the office of the Indian Refineries Limited. Every person making such an objection shall also state specifically whether he wishes to be heard in person or by a legal practitioner.

[No. C2-25(2)/61.]

New Delhi, the 26th August 1963

S.O. 2505.—Whereas by the Notification of the Government of India in the late Ministry of Steel, Mines and Fuel (Department of Mines and Fuel) S.O. No. 2256 dated the 8th September 1960 under sub-section (1) of section 4 of the Coal Bearing Areas (Acquisition and Development) Act, 1957 (20 of 1957) the Central Government gave notice of its intention to prospect for coal in the lands in the locality specified in the Schedule appended to that Notification;

And whereas by the Notification of the Government of India in the Ministry of Mines and Fuel S.O. 2705 dated the 20th August, 1962, under sub-section (1) of section 7 of the said Act, notice was issued specifying further period of one year commencing from the 8th September, 1962 as the period within which the Central Government may give notice of its intention to acquire the said lands or any rights in or over the said lands;

And whereas the Central Government is satisfied that the coal is obtainable in the whole or any part of the said lands;

Now, therefore, in exercise of the powers conferred by sub-section (1) section 7 of the said Act, the Central Government hereby gives notice of its intention to acquire—

(a) the lands measuring 5.00 acres or 2.02 hectares described in Schedule A appended hereto; and

(b) the rights to mine, quarry, bore, dig and search for, win, work and carry away minerals in the lands measuring 1850.00 acres or 749.28 hectares described in Schedule B appended hereto.

The plans of the area covered by this Notification may be inspected in the office of the Collector, Bilaspur (M.P.) or in the office of the Coal Controller, 1, Council House Street, Calcutta or in the office of the National Coal Development Corporation Ltd., (Revenue Section), Darbhanga House, Ranchi.

Any person interested in the aforesaid lands may within 30 days of the issue of this Notification, file objection to the acquisition of the whole or any part of the lands or of any rights in or over such lands to the Coal Controller, 1, Council House Street, Calcutta.
